NONE BETTER GROWN

Rynveld's Gold Medal Bulbs

(FOR THE WHOLESALE TRADE)

We do not issue a retail catalog and cannot fill retail orders

New York City

Yaphank, N. Y.

Central Park, N. Y.

Jacksonville, Fla.

San Francisco, Cal.

Hillegom, Holland

WE TAKE PLEASURE in presenting herewith our catalog and pricelist for our many customers and prospective customers. It has been our desire in preparing this catalogue to list such items as are in demand by the Florists and Seed Stores and we present below the reasons why we are better equipped to handle these orders than ever before.

QUALITY

TO ATTAIN our position as the World's Foremost Bulb Growers has entailed years of experiment and forethought. To maintain our position requires the persistency that can be found only in those who take an active interest in constantly improving the strain.

Marking the first time that any foreign house has been awarded this signal honor, our affiliated Holland firm was awarded the *Gold Medal* at the *Royal Horticultural Society of England Show at London* for its display of *Daffodils*. Gold Medals were also received in *Haarlem, Holland*, for *Tulips* and *Daffodils*. These honors do not come as a result of the efforts of ordinary bulb

growers nor is it possible for the jobber to obtain them. They are the result of carefully planned labors under the supervision of intelligent management and competent growers. The best evidence of our progress is shown at our growing stations both here and abroad. Our Jacksonville, Fla., plantation is a standard of efficiency. For years it has produced Paperwhites of the highest quality available. Our collection of Amaryllis grown here is the most outstanding one. On Long Island we operate two farms, at Yaphank and Central Park, both intensively cultivated under the most modern conditions known. All Dutch stock is produced on our own farms in Holland. It is customary for all bulb merchants to praise the quality of their stock but it is impossible for those not thoroughly equipped as we are to vouch for its quality.

We extend a cordial invitation to customers and prospective customers to visit our growing stations at any time and satisfy themselves regarding this phase of the operation of our business which is so important.

TERMS

5% off for cash with order.

2% off for payment within 10 days.

All bills payable net 60 days.

Unless credit is established with us please give references and allow us sufficient time for checking.

All quotations herein are for shipment F.O.B. New York or Chicago at the buyer's option except where otherwise stated. Prices slightly higher on the Pacific Coast.

For the convenience of our Southern customers we can make shipment of Florida grown stock direct from growing station at Jacksonville, Fla.

Cases and packing extra at cost.

Prices quoted herein are subject in all cases to maintenance of present tariff schedule on the respective item and any change made therein before delivery automatically cancels the within quoted prices.

SERVICE

WE MAINTAIN offices and warehouses at New York and San Francisco and carry a complete line of fall bulbs in stock for our customers requirements.

Wire orders are filled the same day as received by us. All others within 48 hours of receipt. Your inquiries are welcomed and we are pleased to make suggestions as to culture or selection when requested.

We have a representative in your territory. Let us have him call on you.

PRICES

Allow us to sound a word of warning to those who contemplate placing orders based upon competitive quotations. During a period of declining prices such as we have had recently, competition has developed into a frenzy of price cutting with the inevitable result that quality is sacrificed for the sake of price. Skimping on price when purchasing bulbs

invariably results in depreciated returns at blooming time.

We maintain that *quality for quality* our prices are lower than those quoted by others not interested in maintaining the high standard which we have set up.

SQUARE DEAL

To those who have dealt with us for years we need not repeat our policy of square dealing. To our new customers we desire to say that at all times we are anxious to adjust differences. Occasionally, mistakes occur and we receive requests for adjustments. Many are not our fault but our policy of "a square deal for the Florist" will not allow us to overlook them.

WE GUARANTEE

That all bulbs leave our farm or warehouse in good condition, packed in boxes sufficiently strong and substantially secure to insure delivery in good order but we do not assume risks in transit.

That all stock is true to name as represented.

That all stock is inspected and found to be sound and free from disease when shipped.

WE DO NOT GUARANTEE

Productivity—The actual growing of flowers is subject to many conditions over which we exercise no control. We allow five days after delivery for inspection by the purchaser and cannot entertain complaints made after the expiration of this period.

All requests for adjustments must be made in writing to our main office at 55 West 26th Street, New York City and we assume no liability for those made verbally to our salesmen or in any other way.

Display Cards for Your Counter Trade.

To those who retail bulbs we offer free of charge display card reproductions in natural colors. It is important that you have these as they are of considerable assistance in increasing sales and obtaining new customers.

Rynveld's Superior Paperwhites

BUY DIRECT FROM THE GROWER

Narcissus-Paperwhite Grandiflora

EACH YEAR it is becoming more and more apparent that Rynveld's Jacksonville grown Paperwhites are the finest available in this country. In the many comparative tests that we have conducted and that have been reported to us by large users of these bulbs, our stock stands out as not only producing the greater number of flower stems and florets but also as the earliest flowering and giving the most uniform and quickest response for house culture. We have added extensively to our storage, grading and packing equipment and are now able to send out cleaner and more uniformly graded stock than ever before.

NARCISSUS PAPERWHITE GRANDIFLORA

Packed in standard size cases of the same style formerly imported from France.

| | Per 100 | Per 1000 |
|---|---------|----------|
| 12/13 ctm. packed 1250 to case | \$1.50 | \$12.00 |

| 15/16 ctm. packed 800 to case | 3.00 | 25.00 |
| 16 ctm. and over packed 700 to case | 3.50 | 32.00 |

These prices are F.O.B. New York or Jacksonville, Fla., as you prefer. We also carry stock in Chicago; from this point, however, we can fill orders for case lots only. When ordering please state shipping point. Delivery August 15th to March 1st, perfectly dormant.

Chinese Sacred Lily

The bulbs we are producing in Florida are much finer than ever came from China. They do not have that crab-like appearance of the imported stock but are more solid and flower more readily. Very popular for house culture.

| | Per 100 | Per 1000 |
|---------------------|---------|----------|
| First Size | \$3.50 | \$30.00 |
| Mammoth Bulbs | 4.50 | 40.00 |

Grand Monarch

This is one of the sturdiest of the Polyanthus Narcissus. Produces large clusters of cream-white flowers with canary yellow centers on very stocky stems. Is not early but a splendid variety for flowering, from February first and later.

| 16 ctm. and over | 8.00 | 75.00 |

White Pearl

This is a pale creamy-white variety which, on account of its long keeping qualities, promises to be very valuable for dry bulb sales extending into the early spring months after Paperwhites are finished. It produces a large cluster of flowers with much substance and is very floriferous.

| | | | |
|---------------|--------|----------------|---------|
| Per 100 | \$3.50 | Per 1000 | \$30.00 |

Rynveld's Choice Strain (Improved)

THIS strain, offered for the first time this year, comprises bulbs grown from Seeds gathered from the foremost private and commercial collections in all parts of the world. Our collection ranges in color from pure white, through various shades of pink to deepest scarlet with beautiful markings and mottled throats. Improved not only as to color but more perfect, rounded petals and more free flowering than ordinary strains.

Not only is this item profitable for greenhouse culture but seed stores as well will find a heavy demand for these bulbs during the winter months for growing indoors, as it makes a beautiful house plant. Also valuable for outside planting in the South.

AMARYLLIS HALLI

Lycoris Squamageri

The only hardy Amaryllis. Produces attractive green foliage early in Spring, foliage later dying down and about a month thereafter flower stalks appear growing about 2 ft. high with an umbel of large lily shaped delicate pink flowers shaded with clear blue. It has been difficult to amass sufficient stock of this beautiful subject to permit of a general offer; but we now have a fair supply.

| | | | |

| Each | \$.75 | Doz. | \$8.00 |
|------------|--------|-----------|--------|

AMARYLLIS EQUESTRE

A free flowering flame red variety that is much admired by all. Makes a fine pot plant and is very valuable for outside planting in the South, where it propagates freely.

| | | | | | |

AMARYLLIS JOHNSONI

(St. Joseph Lily)

The old favorite free flowering variety. Crimson with white stripe. Naturalizes readily in the South.

| Doz. | \$3.00 | 100..... | \$20.00 | 1000..... | \$175.00 |
|-----------|--------|----------|---------|-----------|----------|

EUCHARIS AMAZONICA

The well known Eucharis Lily recommended exclusively for indoors except in extreme Southern states. Should be well established in pans or pots for free production of flowers. In Europe many growers devote whole houses to this subject and the flowers are classed with orchids and command corresponding prices. Bears from two to three white flowers on a stem.

Rynveld's Superb Darwin Tulips

DARWIN TULIPS are our leading specialty. We have for years consistently pushed their development and advocated their use. The bulbs are cheaper than they have ever been in the past.

This season marks the fading in popularity of some of the old time varieties for they are giving place to a group of newer kinds—each with an improvement either in color, size or forcing quality over the variety it displaces, and these newer kinds are cheap enough to justify their extensive use.

Large stocks of the leading varieties available at our New York warehouse for prompt shipment throughout the season.

For low growing cost and increased returns plant more Darwins outside or in cold frames. Always have a liberal quantity of these in flower for Mother's Day and Decoration Day sales.

Rynveld's Single Early Tulips

THESE bulbs have their greatest value when forced early, for it is obvious that they cannot compete favorably when the larger later types come into flower. Some of the varieties are readily bloomed for Xmas and others maintain an unbroken succession through the Winter months.

Their popularity for outdoor formal bedding is well known, and they continue to be used extensively for this purpose in parks and gardens all over the country. Particular care should be taken in selecting the varieties best adapted to the purpose intended, for many have a beauty or value only when grown under certain conditions.

Rynveld's Breeder Tulips

THE PAST few years have seen a keen revival of interest in these beautiful Tulips and a subsequent great demand that should not be overlooked. Their odd, artistic colors make a special appeal to American garden lovers.

The use of Breeder Tulips has steadily increased, and this year, with the much lower prices that prevail on many of the most beautiful varieties, we expect an unusual demand and have prepared our stocks accordingly.

Rynveld's Dutch Hyacinths

OUR HYACINTHS fields are located in those sections of Holland noted for producing the finest quality. Our extensive acreage with many of the fields devoted exclusively to varieties that are favorites with Florists, enables us to serve our customers with the cream of Holland's Hyacinths. Prices vary according to the size of the bulbs, of course, the large bulbs produce bigger and finer spikes with more individual florets. We have all reasons to believe that we are the largest importers of Hyacinths. Our list consists of varieties which have proven to have the greatest merit.

COLCHICUM AUTUMNALE MAJOR

These unique bulbs flower readily in the home without planting and produce a great number of large crocus like, rosy lavender flowers. After blooming they can be planted outside and make a splendid foliage plant in the Spring. They are ideal for rock garden purpose, planted in the late summer they produce a solid mass of flowers shortly after planting and their color combination gives new life to the rock garden. These bulbs were very popular several years ago before the embargo, and it has been rather difficult to obtain sufficient stock to take care of the heavy demand. We are glad to report, however that we are now in a position to offer these again in large quantities at much lower prices.

Gold Medal

Daffodils

DURING 1932 our branch at Hillegom, Holland, has again been awarded the gold medal at Haarlem, this being the third consecutive year. We have also been awarded the gold medal at the Daffodil Show of the Royal Horticultural Society in London, England.

Many of the most exquisite varieties exhibited at the above mentioned shows are now available to our American customers, being grown on our farm at Yaphank, Long Island, as we realize that a great many firms in this country are also very much interested in the newer and finer varieties. Our many visitors have expressed great admiration for this collection of novelties.

These novelties are not listed in our catalogue as they are planted early in September and we therefore are not in a position to fill orders for these during the current season. However to those who are interested in these varieties, we will gladly mail this coming Spring a complete list upon request. We also invite you to visit our farm during the blooming period and thus convince yourself of the great beauty of these newer introductions.

LONG ISLAND GROWN DAFFODILS

We have harvested a "bumper" crop due to ideal growing conditions. At our prevailing low prices florists should take advantage of the opportunity to grow more of Rynveld's better Long Island grown Daffodils. Our years of experience in growing them on Long Island have proved that there are "none better grown."

F. Rynveld and Sons, 55 West 26th Street, New York

Irises-Anemones-Ranunculus

EVERY ONE knows the value of these beautiful bulbous Irises. We have experimented in many localities and can find no better bulbs than those produced at our Long Island farms grown under cooler weather conditions, are free from the 'mosiac diseases which are prevalent in the warmer regions and which have been responsible for enormous losses. We believe we have the largest and finest stock in the country.

RANUNCULUS

We have started many greenhouse men in the growing of Ranunculus and they are making money on them. The domestic bulbs are larger than those formerly imported and seem to force better. If your trade can use "something different" we suggest that you try them.

The Giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

GIANT FRENCH MIXED. The California grown bulbs are giving splendid results, and we have several letters from customers telling us of the fine flowers produced. Beautiful rosette flowers in a wide range of colors. Force well.

Lilium Regale

LILIUM TENUIFOLIUM

A very graceful lily of low stature with handsome grass-like foliage. Flowers are deep glistening scarlet, from 12 to 20 of them hanging from a single spike. A fine lily among dwarf perennials or in the rock garden.

Per 100\$10.50 Per 1000 \$95.00

LILIUM UMBELLATUM

This is a specie in which the flowers are held in upright umbels and vary in color from yellow to deep orange, scarlet and crimson. grows about 2 ft. high; very hardy and of great brilliancy.

Per 100 \$9.00 Per 1000 \$85.00

IN POSSIBLY no class of bulbs is so much interest being shown as in the beautiful Hardy Lilies, and real efforts are being made in the various producing centers to develop stocks that have been available heretofore only in limited quantities. We are offering some of the most popular kinds and our large volume of trade enables us to make very reasonable prices. All Lilies are ready for immediate delivery.

Lilium Candidum

LILIUM REGALE MYRIOPHILLUM

The beauty of this fine Lily is well known and it stands unequalled among those which thrive in this country. Large trumpet flowers with slight pink and other colored stripes on the lower petals. Very fragrant. If left undisturbed for several years, they will enlarge annually and throw much larger flower spikes.

FLORISTS' FORCING EASTER LILIES

Selected stock from reputable growers. These Lilies are properly graded and are of the same outstanding quality as we have shipped in the past.

LILIUM HARRISII

For the small grower who cannot devote an entire house to Easter Lilies, Harrisii is without question the best variety to use, with sturdy stem and sufficient foliage it makes the finest pot plant and its earliness is making an appeal with the large growers who bloom it in the early spring months ahead of the Japanese types and when the highest prices are realized. Cheaper bulbs may be available but better ones are not.

LILIUM LONGIFLORUM GIGANTEUM

This variety is used most extensively by specialists. Demands an even temperature of 50 degrees at start and then 60 degrees after well rooted. There is a vast difference between Giganteum bulbs as produced in the various sections of Japan, and we have been making a careful observation of the different stocks for the past few years. The bulbs we have delivered have produced far better than any other stock that we have seen or that have been reported to us. This year we will have our supply from the same dependable producer.

Miscellaneous Bulbs

ZEPHYRANTES

This long neglected subject is now becoming recognized and is receiving some of the attention that its beauty and usefulness merits. As a house bulb for quick and sure flowering it has no equal and for the garden, there is scarcely a spot that will not be enhanced by its presence. It can also be forced easily.

Candida

This is the fall flowering white variety which is very attractive for the late summer garden. It is specially adapted for growing in bowls with fibre, and with very little attention is readily flowered in a short time, making it an excellent store item.

Per 100.....\$2.50 Per 1000.....\$20.00

Robustus

A tall, handsome variety with large lavender flowers.

Per 100.....\$4.00 Per 1000.....\$35.00

Rosea

This is the well known pink variety.

Per 100.....\$3.50 Per 1000.....\$30.00

Eucharis Amazonica

Ornithogalum Thrysoides

ORNITHOGALUM

ARABICUM. Makes a large umbel of small white flowers with black base produced on a tall spike. Hardy and very prolific in the extreme South but must be protected in the north.

Per 100.....\$4.00 Per 1000.....\$35.00

UMBELLATUM (Star of Bethlehem). This is the small white hardy variety that is seen in great profusion around many of the old gardens. It propagates readily and adapts itself splendidly to naturalizing. It does well over a wide temperature range and blooms profusely each season with little or no care.

Per 100.....\$2.50 Per 1000.....\$20.00

THRYSOIDES. This is the famous Chinchierinchee the "Wonder Flower" from South Africa. The flowers are pyramidal in shape with the buds of straw color changing to pure white. It is not hardy in the north; but should make an excellent forcing subject and is very fine for outdoor planting in the South.

Per 100.....5.50 Per 1000.....\$50.00

BABIANA PREALTA

This beautiful subject can be easily forced if treated like Freesias. They have broader foliage than Freesias and larger and more open flowers. This variety is a corn flower blue.

Per 100.....\$3.00 Per 1000.....\$25.00

EUCHARIS AMAZONICA

The well known Eucharis Lily recommended exclusively for indoors except in extreme southern states. Requires to be well established in pans or pots for free production of flowers. In Europe many growers devote whole houses to this subject and the flowers are classed with orchids and command corresponding prices. Bears from two to three white flowers on a stem.

Per 100.....\$35.00

LEUCOJUM VERNUM (Spring Snowflake)

The illustration on this page conveys a good idea of these useful bulbous flowers. They are like giant snowdrops, are perfectly hardy and naturalize readily.

Per 100.....\$3.50 Per 1000.....\$30.00

Leucojum Vernum

STERNBERGIA LUTEA

This is a Fall flowering subject very similar to Colchicum in that it will flower without being planted. It resembles a large yellow Crocus. Fine for garden use also and hardy.

Per 100.....\$8.00 Per 1000.....\$70.00

NERINE SARNIENSIS

This beautiful item makes a very late summer cut flower or pot plant. The bulbs make an early start so should be ordered and planted at once.

Per 100.....\$8.00

ANTHOLYZA and WATSONIAS

Both of these subjects are closely related to Gladiolus and the bulbs can be handled in a similar manner. They make long graceful spikes and come in a range of art colors not often seen in other plants. In the southern states they are exceptionally fine for border decorations.

ANTHOLYZA — Mammoth Bulbs

Orange with purple shading and very free flowering. Makes a tall beautiful spike. Also very fine for outdoor planting in the Southern states.

Freesias-Callas-Oxalis

REALIZING the importance of field inspection of all bulbs by us, our West Coast representative has been busily engaged during the flowering period of Freesias and Callas. He will be on the job during delivery time—carefully checking and inspecting each lot, and in this way we will eliminate the peculiar differences that have existed in the stocks produced.

We will thus be assured of a consistent supply of the best bulbs that are produced in the section and in addition will have quick and reliable information on the state of the different crops.

GOLDEN DAFFODIL

TRITONIA CROCATA

This is an old and somewhat neglected bulb that should receive more attention. It has the character of the Freesia, the stem being long, wiry and upright. Blooms with bright orange scarlet flowers and is ideal for pot culture.

Per 100 ... \$3.50 Per 1000 ... \$30.00

OXALIS (Winter flowering)

These are becoming very much in demand for winter forcing. Successive crops may be had from November till late spring by planting at intervals from August onwards. They are most effective planted in pans, 1 1/2 to 2 inch space between bulbs, and make delightful subjects for rooms, sun parlor, etc., simply covering themselves with blooms. Florists will find these good sellers, either dormant or as blooming plants.

Valley-Dielytra-Tritomas

EXPERIENCED "Lily of the Valley" forcers are far more interested in quality than in price. A few dollars more in the purchase price comes back several times in the sales returns. We increase yearly our large Valley importations which is conclusive evidence that we are supplying the stock that makes money for our customers.

LUBECK BRAND (Ready for delivery after Jan. 15th) (Top of the Market) For forcing. The finest Valley grown in Germany. Produces more and larger bells than any other type. Strong wiry stems. For specialists in Valley growing this is the only correct Pip.

PEONIES

We are growing a nice block of Peonies on our Long Island farm and the plants look particularly well this season. No flowers are cut from this stock and thus the full strength of the plants is reflected in the roots we send out. We list below the most important kinds of which we have good quantities but we are also growing many other kinds that will be quoted upon application.

SHIPMENTS— All varieties are offered in strong 3 to 5 eye undivided clumps for September and later delivery.

Long Island Grown Gladiolus

ALTHOUGH GLADIOLUS are being produced in many different sections of the country, our extensive forcing tests have shown us that the quality of Long Island grown bulbs are still in the lead, bringing the largest percentage of strong vigorous flowers. We have therefore increased our acreage considerably although the cost of growing there is much greater than in many other sections. A large part of our farm at Yaphank, L. I., has been devoted to the producing of bulbs particularly suitable for forcing purposes of which no flowers have been cut at all. Our Gladiolus corms are treated against disease when planted and again we treat them before shipping.
